

599 SOMERVILLE AVENUE

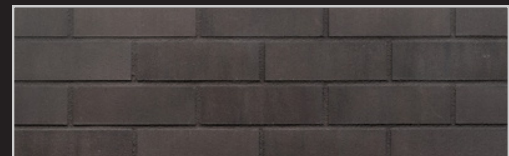

SOMERVILLE, MASSACHUSETTS

599 Somerville Avenue is a modern architectural centerpiece within the Somernova innovation campus in Somerville, Massachusetts, designed to support leading life sciences and technology companies. At King Klinker America, we're privileged to have our thin brick featured on a project that reflects innovation and forward-thinking urban design.

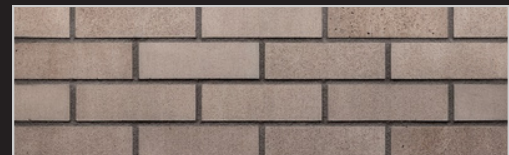

The façade showcases our **Iron Rock** thin brick in King Size alongside **Vesteros Wall** in King Size, creating a bold contemporary exterior with lasting durability and character. Blending sleek glass architecture with textured masonry elements, the building delivers a modern aesthetic while maintaining timeless craftsmanship.

Designed with sustainability in mind, 599 Somerville Avenue supports LEED Platinum certification goals and demonstrates how thoughtful design and high-performance materials can shape the future of modern development.

THIN BRICK BREAKDOWN

Iron Rock | King Size

Vesteros Wall | King Size
