

LOTUS ANTHEM APARTMENTS

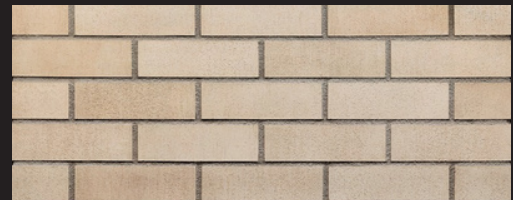

CLEARFIELD, UTAH

Lotus Anthem Apartments represents a bold step forward in sustainable multifamily living, bringing high-performance design to Clearfield's downtown master plan district. As a net-zero community designed to generate more energy than it consumes, the development sets a new benchmark for modern residential architecture.

King Klinker America is proud to contribute to this visionary project with our **Desert Land** thin brick in a King size format. The warm, earthy character of Desert Land adds natural texture to the building's contemporary exterior, creating a refined facade that feels modern and welcoming. The King size brick enhances the architectural lines while delivering the durability of authentic clay brick.

ENERGY STAR-rated apartments, all-electric systems, and a large-scale solar array support sustainable living and energy efficiency. Paired with the enduring quality of King Klinker thin brick, Lotus Anthem Apartments demonstrates how innovative design and authentic materials create beautiful spaces built for the future.
