

KITCHEN RENOVATION

HOLMEN, WISCONSIN

At King Klinker America, we love seeing homeowners bring bold design ideas to life, and this kitchen remodel in Holmen, Wisconsin is a perfect example. Featuring our **Onyx Black Glazed** thin brick in King Size as the backsplash, this DIY project transforms the kitchen with a sleek, modern aesthetic full of contrast and character.

The glossy black finish creates a dramatic focal point against the crisp white cabinetry, while the King Size format adds a clean contemporary feel. Extending the thin brick across both the backsplash and island base creates a cohesive design throughout the space.

To simplify installation, the project utilized the Speedymason installation system, helping the homeowner achieve a professional-quality finish. We're proud to see King Klinker America products used in creative DIY projects that showcase both style and craftsmanship.

THIN BRICK BREAKDOWN

Onyx Black Glazed | King Size
