

GREAT RIVER RESIDENCES

ONALASKA, WISCONSIN

At King Klinker America, we're honored to have our thin brick featured on Great River Residences, a thoughtfully designed community that combines modern living with natural surroundings and everyday convenience. Offering a variety of layouts and amenities, the development creates a welcoming environment for residents with comfort, functionality, and design at its core.

The exterior is enhanced by a striking blend of our **Dark Fortress, Platinum Skies, Aztec Ghost, and Roman Theatre** Modular size thin brick, bringing texture, contrast, and architectural character to the complex. The combination of tones creates a bold contemporary appearance while complementing the surrounding landscape and community atmosphere.

To support efficient installation, contractors utilized Speedymason, helping streamline the application of our thin brick. We're honored that King Klinker America products could contribute to a project that balances modern design, quality craftsmanship, and lasting curb appeal.
