

## WARMIŃSKI PORT

### OLSZTYN, POLAND

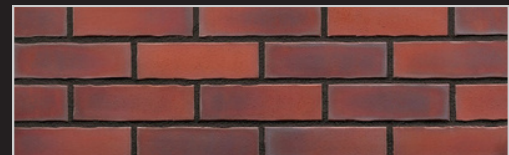

Nestled in the serene Likusy neighborhood of Olsztyn, Poland, Warmiński Port emerges as a symbol of refined living, where King Klinker thin bricks play a pivotal role in defining its aesthetic and structural integrity. This exceptional apartment complex, brought to life by the visionary developers at D.DOM, marries the rustic allure of **Old Factory** and **Gothic Smile** thin bricks in king size with the natural beauty of wood and glass.

This design philosophy not only pays homage to the traditional Warmian architecture but also encapsulates a modern approach to living that prizes comfort, luxury, and a harmonious connection with nature. Warmiński Port stands as a sanctuary for those who seek the tranquility of the natural world without forsaking the conveniences of urban life, making it a unique haven where technology, creativity, and luxury intertwine.
