

THE REVIVAL APARTMENTS

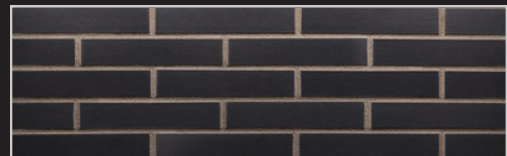

SALT LAKE CITY, UTAH

Set against the backdrop of Utah's mountains, The Revival Apartments in Salt Lake City feature a striking blend of King Klinker America thin brick, combining **Manganese** in Norman Size with **Desert Land** and **Roman Theatre** in King Size to create a bold exterior rich in masonry character. The contrast between the mountain landscape and the building's contemporary design gives the project a distinctive presence within the urban environment.

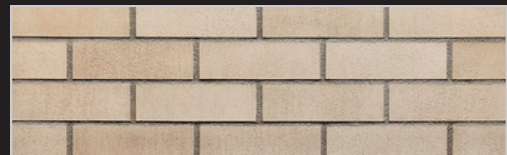

The carefully selected mix of textures and tones adds depth, sophistication, and lasting visual appeal while complementing the project's modern aesthetic. Designed to balance style and functionality, The Revival offers thoughtfully crafted studio to three-bedroom apartments with premium interior finishes and modern conveniences.

Beyond the residences, the community includes amenities such as a clubhouse, 24/7 fitness center, and oversized hot tub, creating spaces for relaxation and connection. By combining innovative design with durable, high-quality materials, The Revival demonstrates how King Klinker America thin brick helps shape elevated multifamily living environments built to last.

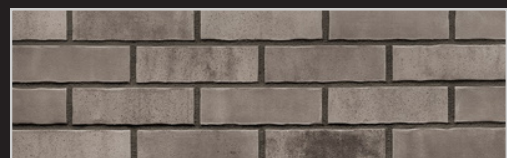

THIN BRICK BREAKDOWN

Manganese | Norman Size

Desert Land | King Size

Roman Theatre | King Size

PROJECT TEAM

Architect: FFKR Architects
