

FORMULA FIG

LOS ANGELES, CALIFORNIA

Formula Fig's beautifully designed space showcases how wellness-driven interiors and modern luxury can come together to create an immersive skincare experience. Featuring King Klinker America's Green Valley glazed thin brick, the project blends self-care, hospitality, and contemporary design within the brand's elevated "Fig Bar" concept.

As part of the King Klinker America Glazed Collection, **Green Valley Glazed** in King Size was selected as a focal point throughout the space, bringing rich texture, depth, and vibrant natural tones to the interior. The glossy glazed finish reflects light beautifully, helping create a calming, spa-like atmosphere inspired by nature and relaxation.

Blending handcrafted character with sleek modern aesthetics, the design invites clients to step into a tranquil retreat away from the outside world. We're honored that our materials could help shape an environment centered on rejuvenation, comfort, and elevated self-care.
